Payspan's existing network and proprietary methodology is helping many large and regional health plans to achieve paperless adoption rates from 90%-99%. Health plans that follow our best practices can attain 100% electronic provider payments.

Shift Your Providers More Quickly with Phased Approach

More providers trust Payspan to deliver secure, efficient payment solutions. Our approach, tailored for each payer client, includes:

1. Phased email EFT invitations to registered providers.

4. Outbound call campaigns to unregistered providers

2. Intensive campaigns focused on enrollment

5. Simple, easy registration process

3. Promotional messaging about benefits of EFT/ACH/VCC

6. Automatic enrollment in EFT/ERA/virtual card system

As the first company to build an entire network around facilitating EFT/ACH as the preferred payment option, Payspan is uniquely positioned to transition your providers more swiftly to electronic payments.
