Core Payspan Network Improves Provider Engagement

Pay your dentists faster and more securely.

Rely on best-in-class enrollment practices.

Increase dental provider satisfaction.

Reduce missing or delayed checks.

Transition to Paperless Payments with Your Dental Providers

Dental electronic payment and remittance penetration rates are 9% and 13%, respectively, compared to 60% for medical payments and 56% for remittances.¹

For this reason, Payspan believes that the dental payment landscape is primed for a significant shift, and because of our existing dental provider connectivity and proven success in the medical space, we are in an excellent position to lead the charge.

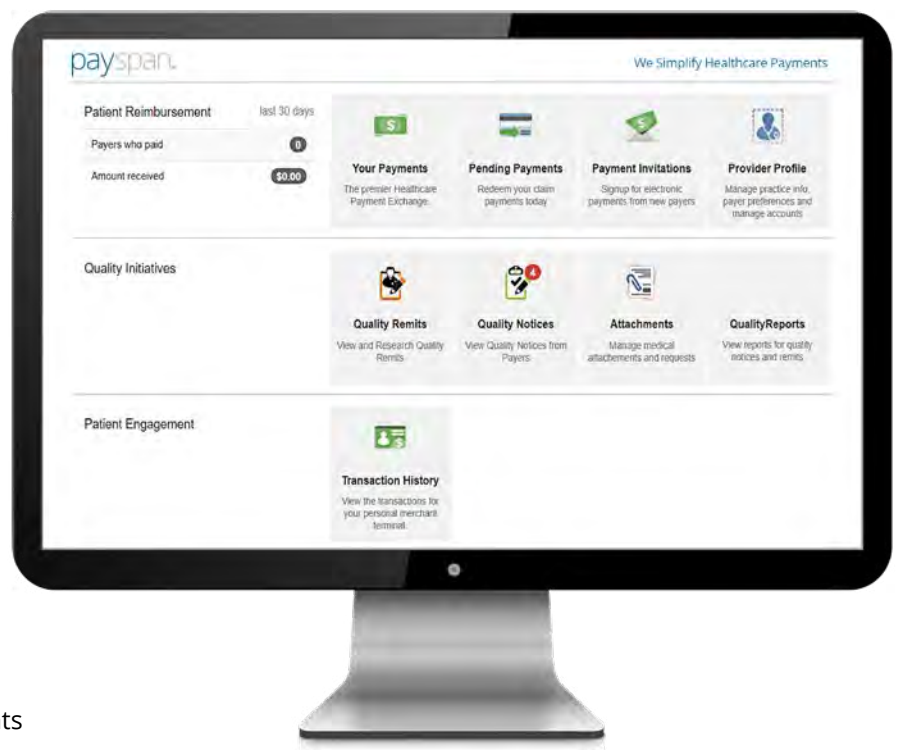

Our network enables your team to:

- Reimburse your dental providers electronically
- Deliver remittances on a secure web portal
- Transition more dental providers to electronic payments
- Leverage a combination of ACE/EFT and virtual card to increase enrollments
- Easily enroll providers with a combination of phone and email outreach led by Payspan
- Comply with shifting regulations

Why not take advantage of Payspan's electronic payment network – the largest nationwide – to drive your dental providers to electronic payments and remittances? Our network complements your existing processes, improves efficiencies and boosts your bottom line.
